## Presentation To Warden Durham

Handsome Case Of Silver From Colleagues — County Debt Reduced \$462,000 — Warden's Dinner Brilliant Affair.

Lincoln's warden, Charles Durham, Reeve of North Grimaby, was Friday evening the genial host to his fellow members of the County Council, ex-wardens, county officials and members of the North Grimsby Township Council at the Lincoln Hotel. The occasion was the annual warden's banquet and it was successful in every respect.

Following the sumptuous turkey banquet County Clerk and Treasurer William Millward presided as toast master, and on behalf of the wurden extended a cordial welcome to those in attendance. Mr. Millward commented on the progress in debt reduction by the county until today it is the lowest since 1914 and expectations are that the debt will be fully retired by 1945.

# Twas The Might Before Christmas

Twas the night before Christmas, and all through the house Not a creature was stirring-not even a mouse; Cigarette Fund. This is a well The stockings were hung by the chimney with care In the hope that St. Nicholas soon would be there.

> he children were nestled all snug in their beds, While visions of sugar-plums danced in their heads; And Mamma in her kerchief and I in my cap, Had just settled our heads for a long winter's nap.

When out on the lawn there arose such a clutter, I sprang from the bed to see what was the matter. Away to the windo. I flew like a flash, Tore open the shutters and threw up the sash.

The moon on the breast of the new-fallen snow Gave the luster of midday to objects below-When what to my wondering eyes should appear But a miniature sleigh and eight tiny reindeer.

With a little old driver so lively and quick, I knew in a moment it must be St. Nick. More rapid than eagles his coursers they came, And he whistled and shouted and called them by same:

"Now Dasher! now Daneur! now Prancer and Vix. On Cornet! on Cupid; on Dunder and Blixen! To the top of the porch, to the top of the wall, Now, dash away, dash away; dash away all!

As dry leaves before the wild hurricane fly, When they meet with an obstacle, mount to the sky. So up to the house-top the coursers they flew, With a sleight full of toys, and St. Nicholas, too.

And then in twinkling I heard on the roof The prancing and pawing of each tiny hoof, As I drew in my head and was turning around, Down the chimney St. Nicholas came with a bound,

He was dressed all in fur from his head to his foot, And his clothes were all tarnished with ashes and soot. A bundle of toys he had flung on his back. And he looked like a peddlar just opening his pack.

Hip .... how they twinkled! his dimples how merry! His cheeks were like roses, his nose like a cherry. His droll little mouth was drawn up in a bow, And his beard on his chin was as white as the snow.

The stump of a pipe he held tight in his teeth, And the smoke it encircled his head like a wreath. He had a broad face, and a little round belly, Which shook when he laughed like a bowl full of jelly.

He was so chubby and plun-s, a right jolly old elf, And I laughed when I saw him in spite of myself. A wink of his eye and a twist of his head. Soon gave me to know I had nothing to dread.

He spoke not a word, but went straight to his work, And filled all the stockings-then turned with a jerk, And laying his finger aside of his nose, Ard giving a nod, up the chimney he rose.

He sprang to his sleigh, to his team he gave a whistle, And away they all flew, like the down of a thistle; And I heard him exclaim as he drove out of sight, "Happy Christmas to all, and to all a good night."

# FACTS & FANCIES

Frank Fairborn, Jr.

FIVE CHRISTMASES

1989—What is this war? 1940—What if we lose? 1941—Can we win?

1942-We can win. 1948-We are winning.

Always bearing in mind that thousands of our finest people have died to save us, and reserving for the bereaved a deep and lasting sympathy, we now can look forward to Victory and Peace on Earth.

THE MEANING OF CHRISTMAS

(By Francis J. Spellman, Archbishop of New York, in Reader's Digest)

Holiday and Holy Day, Christmas in more than a yule log, holly or tree. It is more than natural good cheer and the giving of gifts. Christmas is even more than the feast of the home and of children, the feast of love and friendship. It is more than all of these together. Christmas is Christ, the Christ of justice and charity, of freedom and peace.

The joy of Christmas is a joy that war cannot kill. for it is the joy of the soul and the soul cannot die. Poverty cannot prevent the joy of Christmas, for it is a joy no earthly wealth can give. Time cannot wither Christmas, for it belongs to eternity. The world cannot shatter it, for it is union with Him who has overcome the world.

The leaders and peoples of nations must understand these fundamental truths if we are ever to have freedom and peace. Unless charters and pacts have a divine sanction, unless "God is the Paramount Ruler of the world," then again and again, as the waves upon the shore, must catastrophe follow catastrophe.

Not until men lay aside greed, hatred, pride and the tyranny of evil pass. It to travel the road that began at Bethlehem, will the Star of Christmas peace illuminate the world. Christmas is the Birthday of freedom, for it is only the following of Christ that makes men free.

# THE CHILDREN'S CHRISTMAS

Christmas celebrates the birth of the infant whose marvellous teaching has revolutionized the world. The picture of that little child born in a stable a d cradled in a manger draws the world's and a lat to youth. So Christmas has always centered about child life, and it places its first thought on bringing happiness to the the ones.

So there are scenes of joy in every home that is blessed by children. Parents take infinite delignt in filling the kidlet's stockings with fascinating toys, and seeing tieir eyes with fascinating toys, and seeing tieir eyes stick out with surprise and pleasure as they open up some unexpected gift.

The Caristmas tree with its flashing lights and sparkling ornaments and glitterlights and sparkling ornaments and glitterling tinsel seems like a vision of heaven to the ecstatic little ones. They jump up and down with unchecked glee, and their merry squeaks with unchecked glee, and their merry squeaks resound through the house. The parents are resound through the house. The parents are apt to be still more happy as they view this acene of merriment and enthusiasm.

The children should not get the idea that Christmas is all a receiving proposition. Christmas is all a receiving proposition. Some youngsters get so many things that they become indifferent about their toys and they become indifferent about their toys and possessions. At the same time there are possessions. At the same time there are many families where playtnings are few, and the little ones miss something of the joy of childhood.

The youngsters of the comfortable home should do something to bring the happiness

of hristmas to those who are likely to mise some of this gladness. If the children can man their gifts out of their own money, instead f asking their parents to provide them with thenecessary cash, they will come nearer learning the real meaning of Christmas. If they are the money to make the gifts, they find the real joy that can come from such offeings.

early age, the habit is ikely to remain permanent in their later life. So Christmas for the children is to be regarded as a form of education, which teaches them to go through life sharing their blessings with their friends and those who need help.

### WAR CHRISTMAS

The ingenuity of Santa Claus has been sadly taxed this year. He has done his best to turn out tanks and guns made of wood and cardboard, but there are no clockwork mechanisms. Wooden trains lack the mobility of the streamlined electrics of a few Christmases ago. Even dolls this year are so economically constructed as to force the conclusion that many of Santa's elves and gnomes have been caught by a compulsory transfer order.

It's rather tough on parents, whose imaginations are no longer equal to creating a land of make-believe without the elaborate props of pre-war Christmases. One can hardly spend an afternoon demonstrating to little Johnny the proper method of running a wooden tractor.

For little Johnny and his friends, the situation is not too serious. One young lady of our acquaintances, forbidden the use of her skipping-rope indoors, because of possible damage to mantel-piece ornaments, still skips happily in the living-room, swinging an imaginary rope.

Almost any evening after school is out one can observe sanguinary engagements waged against Japs and Germans with weapons that an unsympathetic observer might mistake for broomsticks and garden tools. A battered express-wagon is easily converted into a tank, a naval gun or a dive-bomber.

And Santa Claus has given the parents one break. This year the after-dinner nap will not be interrupted by the notes of a tin trumpet.

### TALKING TURKEY

The main thing about your Christmas turkey is that it should be tender, brown and well-stuffed. It matters little whether the breed Black Norfolk, White Holland, Bourbon Red Black Norfolk, Narragansett, or Slate. The proof of a bird is in the eating.

However, your turkey holds more than gastronomic interest, according to ornithologists of the Royal Ontario Museum. Young as it may be, its history stems back several centuries.

Indians of the American Southwest first domesticated the turkey, a species found native only on this continent. Spanish explorers took Mexican breeding stock to Spain from whence it spread to other countries of the Old World. It reached England between 1520 and 1540. It was brought back to America by the early settlers

In the course of time the several varieties mentioned above were developed by breeding. Apparently all originated from Mexican stock. The wild race which was once plentiful in eastern North America seems to have contributed nothing to your Christmas dinner, although your pioneer forefathers feasted on it.

This quaint prayer hange outside the doors of the Refectory of the Cathedral at Chester, England.

Give me a good digestion, Lord,
And also something to digest;
Give me a healthy body, Lord,

Give me a healthy body, Lord,
With sense to keep it at its best
Give me a healthy mind, Good Lord,
To keep the good and pure in sight,
Which, seeing sin, is not appalled

But finds a way to set it right.

Give me a mind that is not bored,

That does not whimper, whine - nigh;

Don't let me werry over much

About the fussy thing called "I"
Give me a sense of humor, Lord,
Give me the grace to see a joke,
To get some pleasure out of life
And pass it onto other folk.

now. What to give for Christmas; after that, how is get it or where?

# In Memoriam

(Written for Sgt.-Air Observer Perry McLean who gave his life in the cause of Freedom, and for all the other Airmen who have given their lives, by Jessie May Bain, Grimsby).

He grew so tall, our bonnie lad,
So strong, and blithe and gay.
His hours flew by on joy's fleet wings,
His years seemed but a day.

He gloried in the games at school, Upon the playing field, And in the classes too, excelled, His name's there, on a shield,

And then away to war he went, So eager, dauntless, brave, To soar above the puny earth, A stricken world help save.

Through pathless realms of boundless space We pictured him in flight, Till the Master said "Come higher son, Your task is done to-night."

"Your eyes are keen, and faithfully
They've searched the war-torn skies,
In peace they'll view the glory here,
For glory is your prize.

You've done your very best,

You've done your very best,

Tour craft set down, your post give o'er,

Come up, dear heart, and rest."

With one swift leap he scaled the heights,
That seemed like hills he'd known,
And gained the heavenly tablelands,
Where happy spirits roam.

The golden gates that swing ajar,
For him had opened wide,
And he found many comrades there
Who had journeyed by his side.

And on a lovely deathless scroll,
That Time can never dim,
Our Lord himself has penned his name,
And keeps him close to Him.

He must have longed for streets at home, And wished he could be there. But now he walks the streets of gold, In a city, wondrous fair.

Bine waters of the lake he loved, And breasted them with glee, "Tis fit that he is sleeping now, By a shirting sapphire sea.

Upon the storied Isles of Gresce,
In sunlit, sylvan howers,
His resting place is green and fair,
A paradise of flowers.

Along the trail are loving friends,
Who never will forget,
We do not say that he is dead,
Or that his sun has set,

But rather that he's just gone up,
Ahead, a little way,
And knows a life so full and bright,
Our hearts would have him stay.

For sorrow he'll know never more,
Nor any sort of care
He'll not grow old, but stay so young,
In the mansions over there.

Dear are the memories we have,
Of his young life's short while
"Tis sweet we missed not knowing him,
And the radiance of his smile.

And thus he went, and he "y said,
"So long—'re seeing; ."

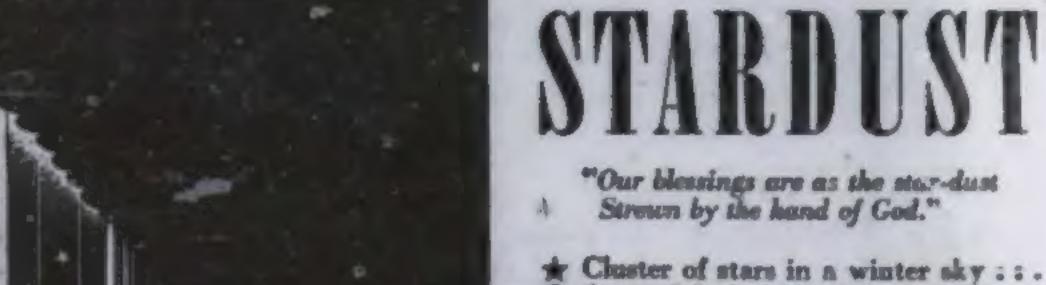

And we will see him cace . rain,
In the Land where drawns come true.

### WHAT A DIFFERENCE SIXTY YEARS MAKES

likty years ago women were hoop-skirts, busties, petticont, cornets, cotton stockings, high buttoned shoes, ruffled cotton drawers, flannelnightgowns, puffs in their hair—did their own cooking, baking, cleaning, washing, ironing—raised big families—went to church Sundays—were too busy to be sick.

Today women wear ankiets instead of stockings, shorts in the summer, stacks in the winter, bras instead of corrects, scanties instead of panties, page-boy hob instead of braids, smoke cigarettes in public, red enamel their nails and toes, accentuate the lines of their mouths with vivid lipstick, wear open-toe wedgies instead of high button shoes, drive cars recklessly but not wrecklessly, play bridge for high stakes and go in for politics as a pastime instead of as a vocation.

### E... UPON A STAR

Under the bright Italian sky, three of our soldiers spoke tonight Of the gifts that they would choose, this sombre Christmas Day.

A lean, wheat-haired prairie boy Spoke of things remembered.

Let me feel the lithe whip Of that light steel casting rod And the battered old hat With bright flies in the band; Mail me some of the ham 'n' eggs Mother cooked on Sunday morning And the yellow sweatshirt I wore. The model "T" with my name on the door And a piece of the back yard With picket femos and respherry canes And a setter who answers to "Rese". I'll take the case full of books And those old slippers I wore And my tool set, if you please, With some shavings of pine And, oh, yes, the ice skates (Bekind the garage door).

A husky lad from a western town Spoke of sight and sound.

Bend me the train whistle's cry Across the sleeping town And the pull of the summer wind In the sails of my sloop. Make me a fat parcel, please, Of waves along a familiar beach, The market at Saturday noon, Rain running in the caves, The camp in the Spring With the maples turning green And a guitar playing in the night. Let me hear Foster Hewitt again. The shouts of kids in the pool And the milk wagon's rattle Going down the morning street. These are the gifts for me With maybe the conset after a storm Across the wide, wet gulf.

An eastern boy, slim and dark, Spoke of portraits in his mind,

I'll take the Christmas crowds In the bright-lit city streets With a Santa Claus at every corner And the carol-singing boys Standing in the mow. If you can send a female V-mail Send me that girl in the yellow dress Who waits today in the white cottage On a high hill with a view. I'll take the beet-faced Irish cop. The lads I worked with in the shop, The mechanic named Gun And all the friends and folks Who shared the things of living. If there is a Kringle, Kris. Let my gift this Christmas be A daughter with a button nose And eyes brown as chocolate drops: A daughter I've never seen.

Now a strident whistle blew. Our troops were moving up the line. The tall kid rose and grinned and said:

"Let's Go! Christmas lies ahead!"

# WE MUST HOLD THE LINE!

On the home front the battle against inflation is now the most critical of all.

\* The winning of this batile will contribute much to winning the war.

It will contribute more than all else towards the solution of post-war problems.

The purpose of Price Control is to prevent inflation. Its purpose is to protect and maintain a basic standard of living.

A higher money income will not be of any advantage if, because prices are going up, our money buys less and less.

To win the battle against unemployment in the post-war period, we must first of all win the battle against inflation.

Salaries and wages are a large element, often the fargest element, in the cost of everything we buy.

If the Price Ceiling breaks down, in the long run all stand to lose.

We <u>must</u> hold the line against inflation to assure victory in war.

We must hold the line to provide a solid foundation on which, after the war, to build a greater and a bester Canada.

# Greetings To Public Servants

There is nothing in the lives of all of us, that we need more, esire more, make use of more, than a Public Utility.

There is nothing that we abuse more than the very same Public Utilities, and particularly, the hard working employees of them.

We curse the metre reader and all his family, of the Gas Co ..; We damn the Waterworks Supt. and all his men; We send the Supt. of Town Works and all his crew to Perdition a 100 times a week; No man that works for the Hydro should be allowed to live; Bell Telephone Bervice is the rettenest in the world; All postal efficials should on at FOR SALE - Girl's figure skates. FOR SALE - Small Christmas birth; so on ad infintum.

Strange as it may seem, that is a fact. What would we do without them? Old you ever ask yourself that?

To The Independent, every member of a Public Utility in this fown, irrespective of the position that he or she helds, is doing a great job, in these days of stress.

To them we extend our heartfelt thanks for services rendered and hope that they have the MERRIEST OF CHRISTMASES AND A GLADSOME, CHEERY NEW YEAR.

# SPORTOLOGY

By Bones Livingston, Sportologist

TO THE MAPLE LEAF

(By Grantiand Rice, New York Sport Columnial)

fere is a toust to the Maple Leaf, and our neighbours up the way. From the horderline of the northern pine, from the Gulf to Raffin Bay. To those who have played the games we play, in the same fixed thought and deed,

In the same rare spirit of sportmanship that goes with the same keen

They belong to us—we belong to them, in a world that is yet to be.
From the southern palms to the Arctic snows, where the spirit of man in free.

Where "never a law of God or man" can split the two apart, From the deep, deep south to the barren lands.

JUST A POUND OF BALONEY-

Smithville Review has a Chinese Sports' Writer on its staff. This lad is Canadian born, the son of the restaurant proprietor. His name is Eugene Mark and he writes a mighty fine line of floory. He is also some athlete, taking part in all branches of sport and getting his share of the honors. Chinese residents of Grimsby have also been good sport Bowling league do not seem to have the finesee of the Grimsby howlers. In fact in spots they do not even come up to par with our lady kegiers. 371; high triple score in Beamsville is held by our own Pud Reid with 746, as against Dorie McBride's 790 and Honey & don't overlook Mary Irvine's 744; high team Capitals, a farm team of the Detroit Red Wings. That's a long jump from juvenile to pro. rank but the kid seems to be making the grade.

ANNUAL REPORT OF THE ROAD SUPEPINTENDENT for the

COUNTY OF LINCOLN F. E. WEIR, Poad Superintendent and Engineer. TO:-The Warden and Council of the County of Lincoln in Council assembled: " Gentlemen:

I submit herewith my Annual Report on the County

roads for the year 1943.

Since the consolidated by-law of County roads was passed by the County Council this year we have 184.6 miles of County roads and 12.5 miles of Suburban roads, as follows:-

Post-War Construction:-The report by the special road committee on Post-War construction has been printed in the minutes of the November session and I hope will be discussed by future County Councils as the recommendations contained in it are worth considering. The order of doing these jobs is not important but their being carried out in the order which each succeeding County Council decides best, should be considered important. Roads cannot be built without spending large sums of money. The work should be paid for as it is done.

We have found by past experience that each year brings problems of its own and that roads are not permanent and need continual maintenance. We have also found that good roads are increasingly necessary to our living.

There is a plan under way which is being discussed by Provincial and Dominion authorities in addition to the plan which this County has discussed which would eliminate all railway intersections with the main County and Township roads. I am led to believe that the part of the cost which the County would pay in these crossing eliminations would be small.

There is also under discussion the possibility of raising the subsidy paid to Counties and Townships on bridge construction. It is probable that we may hear more about

these plans before long. Construction:-

There has been very little construction done this year. We built 4 culverts on 5E between Scv'h and North Grimsby and West of 13N in Clinton Township. These culverts were too narrow and smaller than necessary to properly carry off the water. This job was approved by the Department of Highways. Some work which was started in previous years was completed. Grading North of the new bridge at Warner was finished and 4 corners at Jordan on N are being improved. A short piece of curb and gutter to enprove the drainage was built at Wellandport, Some maler wooden culverts have been installed where metal cult a lis failed.

bidatenance:-Patching holes in roads and repairing parts o oads thich failed has taken considerable time and materia's and he cost has been high. The cheapest way to maintain roads to repair them before they break up. We have not been ple to do this during th past 3 years and have been comelled by lack of materials to resort more to hand patching.

Some ditching has been done to improve the drainage a few roads. More of this work would be worth our while men were available.

We have not been able to widen any of our stone wads during the past year. This is a job which can undertaken on a large sc: in our post war plan.

Bituminous materials have been available in very mited quantities only and some of them have not been up pre war standards. The supply companies however have one a splendid job in keeping our jobs going. They have seeded a little longer notice before shipment could be made due to the many demands made on them but have always devered the goods when promised. This fact has been a great selp to us and enabled us to plan our work so that there were few delays.

Equipment:-Our equipment has stood up well this year. One truck, old No. 1 at last has had to be scrapped. This truck, G.M.C. was bought in 1928 for \$4,020.00 and has worked continuously since 'hat time. It has plowed snow in winter entil last year in addition to the work a truck is ordinarily supposed to do. Careful maintenance and good drivers were largely responsible for its long life. This truck paid for it-

self many times Ordinarily the life of this truck would be 5 years.

Truck No. 2. The F.W.D. is doing good work. In 1941 we retired \$1,252.26 of the cost price, in 1942 another \$1,412.05 and 1943 up to Oct. 31st it had earned \$1,860.01. It is paying for itself and is our main standby for snow removal in winter.

The other trucks which were purchased on a rental basis in 1940, No. 6 International 3 ton and No. 7 Maple Leaf 8 ton have already paid for themselves and are now showing consilerable profits. No. 8 bought last Spring seems to be a good truck and this year we will write off about \$1,000.00 for depreciation.

Trucks No. 4 and 5 bought in 1938 at about \$1,788.00 each have paid for themselves and should be replaced by new trucks if they were available but it is doubtful if we could get permission from the Controller of motor vehicles to do this now.

Our Steam Roller, now 28 years old has been rented most of the summer at \$2,50 per hour. We supply the roller man, coal, oil etc. It has shown a profit of about \$400.00 on this work.

The Osgood Shovel continues to be a very valuable out it since men are so hard to get. During the 4 years we have had it we have written off approximately \$6,300.00 depreciation. This shovel when new would cost around \$11,-000.00. We charge \$2.50 an hour against our own jobs. Contractors are charging from \$5.00 to \$7.00 an hour for similar equipment.

New Equipment:—

This year the equipment bought was a new pump and a new light snowplaw, and No. 8, 5 ton International Truck (on a rental basis).

Stock:-We have on hand 15 tons of Atlacide weed killer which I ordered last March and did not get until September, too late for this year's work. The cost to us at our storehouse was a dittle more than 7c a pound.

We have also about \$600.00 worth of wood pipe culverts which is necessary to have in case of emergency as it takes from 8 weeks to a month to get them now.

During the year we have bought about 16,000 gallons of gasoline which has been charged against the different pieces of equipment which used it. Oil and grease used cost \$327.82.

Lumber on hand not including used lumber but which includes oak bridge plank is valued at \$715.00. Suburban Roads:-

Little work outside ordinary maintenance was done this year. The Merrittville road was badly broken early in the year by the Hydro Electric Power Commission in hauling very heavy loads to the DeCew Falls Power Development. Several meetings were arranged between the Suburban Area Commission and the Hydro Engineers and it was finally agreed that the Hydro should pay \$15,500,00 towa. of the rebuilding of this road.

The Suburban Area Commission have discussed the advisability of making a fill to widen and straighten the road just south of the Canadian National Railway but nothhas been definitely settled about it as yet.

Statement of Expenditures:-The tables of costs for work done this year follow

and form part of this report. I wish to thank the road committee and the County Council for their co-operation during the past year. I hope that by next year the war situation will have improved so that we can get materials to do some of the jobs which have been laid aside for lack of men and materials to do them.

All of which is respectfully submitted, F. E. WEIR, County Engineer and Road Superintendent.

### REPORT OF LOCAL PENSIONS BOARD, 1943

TO:- Die Warder and Council of the County of Lincoln.

Gentlemen:-

All Local Boards are required by the Commission to meet once a month. Your Board has met on a stated day, the 2nd Thursday of each month, this in order that the Cierks in sending us applications will know when to expect them to be dealt with.

Due to the fact that every well person has been employed in some capacity during 1943 and earning good wages is to some extent the reason that the number of applications remains the same as last year. Men who formerly depended entirely on the fluctuating incomes from their f. one are in many cases able to suppement by war industry, a a enabling them to carry the full responsibility of their families. Strange but in each of the 3 classes of I paion, Old Age, Blind and Mothers' Alowance we received e ctly the same number of applications as we did in 1942.

There have been no changes in the administration of the pension work during the year but due to war conditions a cost of living bonus was added to be. The first one was instituted on June 1st when an additions \$3.00 was paid to all Old Age Pensioners. The second one of \$5.00 was added on Nov. ist but-paid only in such cas, as it is found by Proceedings of December Session, 1943

Proceedings of December Session, 1943 the Commission to be needed. Each care will be dealt with separately, on its own individual merits in the payment of this \$5.00 increase Thus, full pension at the present time amounts to \$23.00 instead of the former \$20.00 and, \$28.00 where it is needed. A 20% bonus was given to recipients of Mothers' Allowance. Thus a moth wit, one child receives \$30.00 instead of the \$25.00 formerly pad

Since the inception of the Old Age Pension Act In August, 1929 there have been 1411 applications accepted in Lincoln County. At the present time le have 385 persons receiving Old Age Pensien. The Blind I ensions Act was instituted at the same time and from records kept since 1937 there have been 25 applications made in Lincoln County with 8 benefitting at present. The Motiers' Allowance Act dates back to 1920. There was no record of the applications kept up to March, 1938 when the Local Foard began to function. Since then 105 have made application here and 85 of these are benefitting under the Act new

It might be of interest to you toknow that since the sot show up at asmission meet- der it to others.

Old Age Pension Act came into force the statistics show that life has been prolonged 21/2 years. No doubt the satisfaction of mind brought about through freedom from worry concerning ways and means in their later years has contributed largely to this fact.

Many individuals at the age of 70 and over are quite alone in the world without anyone to give them necessary care. In this connection we have resident in the Lincoln County Home at present 1 Blind and 23 Old Age Pensioners. In this way about \$552.00 goes to the Home Management each month and-these people have a comfortable home and good care.

51 Applications for Old Age Pension were received during 1948. 22 of these have been granted and, during the same time 47 deaths were reported. 1 Blind Pension application and 14 Mothers' Allowance were received also during the year. These have all been dealt with and passed on to the Commission so that as far as our office is concerned we can start the New Year with a clean slate.

All of which is respectfully submitted, G. A. HEDLEY, Chairman.

# Ration Coupons For Service Men

Of interest to local homemakers are the new regulations governing additional ration coupons for entertaining members of the armed forces on abort leaves.

The ration administration has arranged that ration application cards will be given with leave pass for a 48, 72 or 96-hour leave. At the conclusion of the visit, the servicemar, will fill in the particulars called for on the special ration card, including the number of meals he was served in the home.

His mother or hostess will also sign the card, which may be mailed or taken to any Local Ration Board. For every nine meals shown on the card, a two week's supply of any one rationed food

may be obtained in ration coupons. Uniformed men on longer leaves, that is five days or more, will call for the usual temporary ration. card at the Local Hation Office.

Grimsby, passenger in a charge of Keith Eimmerman, also of North Grimsby, sustained severe facial lacerations Monday evening struck by another, in charge of Marvin Glover, 19, of Cannon St east. Hamilton.

The accident happened on No. highway one mile west of town. Provincial Constable A. E. Reilly, who investigated, was informed that the Zimmerman car, headed east, was stopped on the left shoulder of the highway when a west-bound machine in charge of Glover crashed into it.

The injured man was attended by Dr. A. F. McIntyre. Both cars were considerably damaged.

FOR him, that Long Distance call home at Christmas is the big event of the day. He's counting on it. Let's make sure that he, and thousands like him, won't be disuppointed.

It means giving up our own Christmas telephoning, so that war-crowded lines will be freed to handle the flood holiday greetings from naval, army and air force posts across the country. It means sending our Christmas messages by mail.

Should you find you must telephone out-of-town, try to do so as many days before the holiday as possible.

And especially avoid all non-casential calls to distant or war-busy centres. Winning the war is a non-stop job, and urgent messages must go through.
